PROFESSIONAL SUMMARY

IT Support Specialist with hands-on experience in troubleshooting, LMS administration, and end-user support across academic and enterprise systems. Proven ability to resolve technical issues, manage user accounts, and support SaaS platforms such as Microsoft 365, Google Workspace, and Zoom. Experienced in User Acceptance Testing (UAT), system deployment, and technical documentation, with a strong focus on delivering high-quality customer support in fast-paced environments. Seeking a remote IT support role where I can contribute to efficient service delivery, user satisfaction, and continuous system improvement.

CORE SKILLS

- Level 1 Technical Support
- Incident & Ticket Management
- LMS Administration (NEO LMS)
- Microsoft 365, Google Workspace
- Zoom & Virtual Collaboration Tools
- User Account Provisioning
- Troubleshooting (Login, System, Email, Software)
- User Training & Onboarding
- Technical Documentation
- Knowledge Base Management
- User Acceptance Testing (UAT)
- Manual QA Testing
- System Monitoring & Reporting
- Customer Support & Communication

WORK EXPERIENCE

Educational Technology Assistant **May 15, 2024 - Present**

University of San Agustin - Iloilo City, Philippines

- Provide remote and onsite Level 1 IT support to faculty, students, and staff for LMS platforms, Zoom, and academic systems.
- Act as the primary point of contact for technical concerns, resolving issues related to login access, system navigation, and software tools.
- Manage user account provisioning (activation, deactivation, access control) and support onboarding of new users.
- Deliver real-time technical support for virtual classes, webinars, and online meetings, ensuring minimal disruption.
- Conduct training sessions and onboarding programs for users on LMS and virtual learning tools.
- Perform User Acceptance Testing (UAT) and QA testing for systems such as OBE and WFDMS, documenting bugs and coordinating fixes.
- Monitor LMS usage, course accessibility, and system performance, ensuring reliable service delivery.
- Create and maintain technical documentation, user guides, and knowledge base articles for recurring issues.
- Generate weekly and monthly reports on system usage and support performance.
- Escalate complex technical issues to developers or vendors and track resolution progress.
- Support continuous improvement initiatives by evaluating new tools and recommending process enhancements.

PROJECT EXPERIENCE

Outcome-Based Education (OBE) System Deployment

- Led coordination of system deployment lifecycle, including requirement gathering, testing, documentation, and user training.
- Worked closely with stakeholders to identify system requirements and translate them into functional solutions.

Web-Based Faculty Deliverables Monitoring System (WFDMS)

- Conducted UAT testing, documented issues, and collaborated with developers to ensure system readiness and performance.

TECHNICAL SKILLS

- Operating Systems: Windows 10/11, Linux (Ubuntu, AlmaLinux)
- Platforms & Tools: Microsoft 365, Google Workspace, Zoom, LMS (NEO)
- Programming: Python, C, HTML, CSS, JavaScript
- Tools: Git, Visual Studio, PyCharm, Arduino IDE

EDUCATION

Bachelor of Science in Computer Engineering **July 2019 - July 2023**

University of San Agustin

- Embedded Systems Specialization
- Thesis on “Development of Real-time Outdoor Air Quality Monitoring with Notification System for Transport Terminals”.
- President - Augustinian Computer Engineering Society (ACES) AY: 2022-2023

CERTIFICATIONS

- Google Certified Educator Level 2
- Google IT Support Certificate
- Networking Basics – Cisco
- Software Testing and Automation – Coursera

ADDITIONAL INFORMATION

- Strong ability to troubleshoot remotely and handle multiple support requests efficiently
- Excellent written and verbal communication skills for global support environments
- Adaptable to shifting schedules and remote team collaboration
- Committed to continuous learning and improving IT service delivery
